³⁾*Department of Space Transportation, Taiwan Space Agency, Taiwan*

keywords: maximum 5 keywords

Researchers, engineers, and professionals from academia, industry, and government agencies are invited to submit abstracts for presentation at the TASTI 2026. The conference aims to provide an international forum for the presentation and discussion of recent advances in space science, satellite technology, and related applications.

Extended Abstract Submission

Authors are invited to submit an extended abstract in English describing original research, technical developments, or application results relevant to the themes of the conference. The abstract should clearly state the objective, methodology, key results, and significance of the work. Abstracts must contain **a minimum of 300 words and a maximum of 800 words**. All submissions must be uploaded in PDF format through the TASTI conference submission system. The deadline for abstract submission is **15 August 2026**. The uploaded file size must not exceed 10 MB.

Submitted abstracts will be reviewed by the TASTI Program Committee for acceptance and session allocation. Accepted abstracts will be available to participants through the conference website.

Formatting Requirements

Abstracts must follow the formatting requirements below:

- Paper size: A4
- Layout: Single-column format
- Margins:
 - Top and bottom: 2.54 cm
 - Left and right: 3.17 cm
 - Font: Times New Roman
 - Font size: 10.5 pt
 - Line spacing: Single

The document should include the following elements in the order listed below:

- Paper Title
- Authors
- Affiliations
- Keywords
- Abstract Text
- References (if applicable)

Title, Authors, and Affiliations

The paper title should be written in **title case, bold, and centered. (Title limit: 50 words)**

Authors' names should be written using full first and last names, separated by commas. The presenting author should be indicated with an asterisk (*). Professional titles such as Prof., Dr., or Manager should not be included. Affiliations should appear on the next line after the author list without a blank line and should include the name of the organization or institute and the country only. Detailed mailing addresses are not required. Affiliations should be italicized and centered.

A maximum of 8 authors is recommended. If the author list exceeds 8 names, "et al." may be used. The presenting author's email address may be included on the following line and should be italicized and underlined.

Abstract Text and Figures

Leave one blank line before the abstract text. The word "Abstract" should not be included as a heading. Paragraphs should be separated by a blank line and should not be indented.

Figures and tables may be included if necessary. All figures must be high resolution and embedded within the document. Figure captions should appear below the figure, while table captions should appear above the table. Equations should be numbered sequentially using parentheses, for example (1).

$$\frac{d\Omega}{dt} = -\frac{3}{2}J_2n\left(\frac{R_{\oplus}}{p}\right)^2 \cos i \quad (1)$$

References

References should be listed at the end of the abstract and numbered in the order they appear in the text. Citations within the text should be indicated using square brackets, for example [1].
